Vivian, 2018-03-01 In the era between the world wars wealthy sportsmen and sportswomen created more than seventy large estates in the coastal region of South Carolina By retaining select features from earlier periods and adding new buildings and landscapes wealthy sporting enthusiasts created a new type of plantation In the process they changed the meaning of the word plantation with profound implications for historical memory of slavery and contemporary views of the South A New Plantation World is the first critical investigation of these sporting plantations By examining the process that remade former sites of slave labor into places of leisure Daniel Vivian explores the changing symbolism of plantations in Jim Crow era America [Leisure, Plantations, and the Making of a New South](#) Julia Brock, Daniel Vivian, 2015-10-01 *Leisure Plantations and the Making of New South* investigates the social architectural and environmental history of sporting plantations in the South Carolina lowcountry and the Red Hills region of southeast Georgia and northern Florida Although plantations figure prominently in histories of the post emancipation South historians have paid little attention to the redevelopment of plantations for non agricultural use By examining the two largest concentrations of sporting plantations on the south Atlantic coast this collection explores questions about historical memory of slavery race relations material culture and the environment during the first half of the twentieth century **Richmond Hill Plantation, 1810-1868** James L. Michie, 1990 **Mansfield Plantation: A Legacy on the Black River** Christopher C. Boyle John Rutledge Parker, 2015-05-04 Standing on the banks of the Black River Mansfield Plantation is a living testament to antebellum rice plantations In 1718 it started as a five hundred acre land grant near the upstart village of Georgetown The main house was built around 1800 and the plantation soon grew to nearly one thousand acres John and Sallie Middleton Parker returned the property to the Man Taylor Lance Parker family a line of ownership dating back 150 years Ongoing preservation projects ensure that future generations can explore and appreciate one of the most well preserved rice plantations in America Plantation historian Christopher C Boyle captures the spirit of Mansfield Plantation and unravels the many mysteries of its past *Lowcountry Time and Tide* James H. Tuten, 2012-11-26 A thorough account of rice culture s final decades and of its modern legacy In mapping the slow decline of the rice kingdom across the half century following the Civil War James H Tuten offers a provocative new vision of the forces agricultural environmental economic cultural and climatic stacked against planters laborers and millers struggling to perpetuate their once lucrative industry through the challenging postbellum years and into the hardscrabble twentieth

century Concentrating his study on the vast rice plantations of the Heyward Middleton and Elliott families of South Carolina Tuten narrates the ways in which rice producers both the former grandees of the antebellum period and their newly freed slaves sought to revive rice production Both groups had much invested in the economic recovery of rice culture during Reconstruction and the beginning decades of the twentieth century Despite all disadvantages rice planting retained a perceived cultural mystique that led many to struggle with its farming long after the profits withered away Planters tried a host of innovations including labor contracts with former slaves experiments in mechanization consolidation of rice fields and marketing cooperatives in their efforts to rekindle profits but these attempts were thwarted by the insurmountable challenges of the postwar economy and a series of hurricanes that destroyed crops and the infrastructure necessary to sustain planting Taken together these obstacles ultimately sounded the death knell for the rice kingdom The study opens with an overview of the history of rice culture in South Carolina through the Reconstruction era and then focuses on the industry s manifestations and decline from 1877 to 1930 Tuten offers a close study of changes in agricultural techniques and tools during the period and demonstrates how adaptive and progressive rice planters became despite their conservative reputations He also explores the cultural history of rice both as a foodway and a symbol of wealth in the lowcountry used on currency and bedposts Tuten concludes with a thorough treatment of the lasting legacy of rice culture especially in terms of the environment the continuation of rice foodways and iconography and the role of rice and rice plantations in the modern tourism industry

culture from African traditions and American circumstances Joyner recovers an entire lost society and way of life from the letters diaries and memoirs of the plantation whites and their guests from quantitative analysis of census and probate records and above all from the folklore and oral history of the enslaved Americans His classic reconstruction of daily life in All Saints Parish is an inspiring testimony to the ingenuity and solidarity of a people This anniversary edition of Joyner s landmark study includes a new introduction in which the author recounts his process of writing the book reflects on its critical and popular reception and surveys the past three decades of scholarship on the history of enslaved people in the United States Plantation Tales N Rhyne,Nancy Rhyne,1989-06 Includes 28 stories of plantation life from Wilmington NC to Savannah Georgia nine of which are new to print Sharing the pages of this book are the wealthy white planters of the 18th century who built the plantations with the help of slaves and the latter day Northerners who rescued many of the plantations from ruin and preserved them for the 20th century **The South Carolina Historical and Genealogical Magazine** ,1913
