Gender Power In The Workplace Analysis:

Gender Power, Leadership, and Governance Georgia Duerst-Lahti, Rita Mae Kelly, 2025-12-10 Investigates how notions of masculinity and femininity inform ideology political action and institutional prejudice Gender, Class and Power Tricia Dawson, 2018-04-18 With a particular focus on the British printing industry this book tackles the ongoing issue of pay inequality and examines the challenges facing many women today By analysing organisation processes within the workplace the author considers the unequal allocation of power resources that generate and sustain women s invisibility and argues that women s power is often outflanked by that of their male colleagues Written by a skilled academic with direct industry experience this new book is an insightful read for those researching human resource management HRM women s studies and diversity as well as trade union officials and policy makers *Gender, Power, and Society* Marcia Texler Segal, Vasilikie (Vicky) Demos, 2025-12-01 Bringing together a diverse set of scholars who apply innovative theoretical frameworks including intersectionality and feminism chapters examine how power is distributed and exercised in various social structures institutions and interpersonal interactions *Gender and Power in the Workplace* Harriet Bradley, 1998-11-18 After over two decades of feminist campaigning why is it that men are still paid more than women and established patterns of gender segregation persist Are the feminization of the labour force and the rise of dual earning couples radically affecting the sexual division of labour in the home and at work What roles are played by trade unions in promoting equality between the sexes And if women are finally breaking through glass ceilings is it at the expense of men This important new textbook explores these questions using original material from interviews with female and male employees in five case study organizations The author develops a new approach to power in terms of a range of resources which are used by women to challenge male domination and by men to resist women s encroachment This approach is used to unpack the complexities of power relations of gender and class as they are played out in the everyday lives of working people The interaction of class and gender is also explored at the societal level in terms of increased global competition feminization and the development of a climate of equality fostered by Equal Opportunities programmes Women s expectations are increasing leading them to compete with men for promotion and career advancement but this is taking place in the context of increasing insecurity anxiety and work intensification for all employees especially those in public sector organizations *Gender and Power in the Workplace* makes a major contribution to the sociological analysis of power and to our understanding of how processes of gendering are played out in the sphere of employment *Speaking Justice to Power* Kim Forss, 2017-09-08 Efficiency economy and equity are policy goals pursued by governments around the world but analysts and evaluators have devoted more effort to measuring and evaluating the first two In *Speaking Justice to Power* contributors examine the concept of equity the role it plays and its application in policy evaluation Here some of the most valuable thinkers in the area of policy studies address key questions How should evaluators develop criteria for measuring equity as they analyze both program and policy implementation as well

as their impacts What distinctions among people should be taken into account when measuring and valuing impacts What sorts of data should be used to analyze processes and impacts in different settings How might such data be validated The contributors employ grounded theory thinking as they translate key ethical principles into their work and draw important lessons from their experiences The work discusses equity in interventions addressing a variety of social and environmental problems This volume continues the fine tradition of Transaction's Comparative Policy Evaluation series

The Routledge Handbook of Language, Gender, and Sexuality Jo Angouri, Judith Baxter, 2021-04-26 Shortlisted for BAAL British Association for Applied Linguistics Book Prize 2022 The Routledge Handbook of Language Gender and Sexuality provides an accessible and authoritative overview of this dynamic and growing area of research Covering cutting edge debates in eight parts it is designed as a series of mini edited collections enabling the reader and particularly the novice reader to discover new ways of approaching language gender and sexuality With a distinctive focus both on methodologies and theoretical frameworks the Handbook includes 40 state of the art chapters from international authorities Each chapter provides a concise and critical discussion of a methodological approach an empirical study to model the approach a discussion of real world applications and further reading Each section also contains a chapter by leading scholars in that area positioning through their own work and chapters in their part current state of the art and future directions This volume is key reading for all engaged in the study and research of language gender and sexuality within English language sociolinguistics discourse studies applied linguistics and gender studies

Gender Power Relations in Public Bureaucracies Georgia Duerst-Lahti, 1987

Organisations, Gender and Power Judy Wajcman, 1993

The Political Interests of Gender Revisited Anna G. Jónasdóttir, Kathleen B. Jones, 2009 In the two decades since the publication of our last anthology Jónasdóttir and Jones write in their introduction to this important new book two trends have characterised approaches to the concept of gender in political studies one strategically centring gender in social and political analysis and the other deconstructing gender Tensions between these trends led to an impasse in feminist theory generating a crisis in how to think about what we can do about gender identity or

representation in the ethical political sense Organizational Communication: Participation, power, and gender Linda Putnam, Kathleen J. Krone, 2006 Covering the fundamental theories of organizational communication studies this collection focuses in particular on the development of the field through articles that influenced agenda setting and charts the course of the research *Current Research in Industrial Relations* Association of Industrial Relations Academics of Australia and New Zealand. Conference, 1997 **Labour & Industry**, 1997 Linguistics and Language Behavior Abstracts, 2008-02 **The Interplay of Work Power and Family Power** Sung-Hoon Lee, 1997 The purpose of this dissertation was to empirically test the assertion that men's power in the workplace is perpetuated within the domestic sphere and to extend the argument to include the relationship of work power and family power for women as well Employing Blood and Wolfe's resource theory and Kohn and Schooler's learning generalization theory this researcher examined gender differences in the spillover effects of work power and work related rewards such as occupational status and income on power in the family sphere Gender role ideology was taken into consideration as an intervening variable in the interplay of work power and family power The data for the present study came from the U S survey in the Comparative Project on Class Structure and Class Consciousness Wright et al 1989 The final sample for the analysis consisted of 230 men and 196 women who were living with their spouses and were in the labor force The findings indicated that significant direct causal relationships did not exist between work power and family power for either men or women Moreover the statistical analyses did not reveal a significant indirect causal relationship between work power and family power via gender role ideology Income was shown to have a direct effect on financial decisionmaking and participation in household labor for men suggesting that men's earnings played a role in defining their role as the main provider In contrast none of the exogenous variables had a statistically significant relationship with the endogenous variables for women indicating that work and family were two separate spheres for women with regard to power relations Gender role ideology had a positive direct effect on marital decision making power for women Finally the data showed that the amount of variance in family power was explained primarily by the individual worker's sociodemographic and family characteristics such as age education children hours in paid work and spouse's income rather than the experience of power in the other work sphere **Contexts, Contacts & Constraints** University of Melbourne. School of Languages. Postgraduate Conference, 2005 **American Sociological Review**, 1936 Includes sections Book reviews and Periodical literature **Gender Politics in Latin America** Elizabeth Dore, 1997 The essays analyze the gendered politics of state power language culture history social movements human rights and knowledge Abstracts of the Annual Meeting American Anthropological Association, 1993 **Sociological Abstracts** Leo P.
