Henry Cavendish  
his life and scientific work

The scientific revolution, which found the life of a nation and gave  
it a new direction, was not a sudden event, it was the result of a long  
struggle against opposition. It began with the work of the great  
scientists of the 17th century, the work of Galileo and the work of  
Newton, and it was the work of the 18th century, the work of  
Lavoisier and Laplace, which brought the scientific revolution to  
its consummation. The scientific revolution was the result of the  
struggle against the forces of tradition, and the triumph of the  
scientific method.

Henry Cavendish, one of the leaders of the 18th century  
scientific revolution, is here represented in the earliest  
stages of his career. The life of Cavendish is the history of the  
struggle against the forces of tradition, and the triumph of the  
scientific method. The life of Cavendish is the history of the  
struggle against the forces of tradition, and the triumph of the  
scientific method.
