comparative trends in laws affecting labour and labour relations **Imperial Control in Cyprus** Antigone Heraclidou,2017-06-30 In Protectorate Cyprus education was one of the most effective tools of imperial control and political manipulation used by the British This book charts the cultural and educational aspects of British colonial rule in Cyprus and analyses what these policies reveal about the internal struggles on the island between the 1930s and the 1960s Cyprus had been under British occupation since 1878 but it was only half a century later that educational policies acquired a strong political significance and became essential in preserving the British position on the island The co existence of two very strongly held and eventually conflicting national identities in Cyprus Greek Orthodox and Turkish Muslim inevitably led to the politicisation of education and culture on the island Therefore any attempts to impose British culture language and ways of thinking onto Cypriots or even to create a distinct Cypriot identity had very limited success Gradually the education system reflected the shifting political developments in colonial Cyprus By the start of the 1950s schools had become a breeding ground for discontent and between 1955 and 1959 they were an indispensable part of the EOKA revolt In this book Antigone Heraclidou provides a new dimension to the understanding and origins of the deadlock that was to prove one of the most intractable in the final years of the British Empire **The Cyprus Journal** ,1906 The Cyprus Agricultural Journal ,1930
