Bradford,2014-12-18 To 21st century readers 19th century depictions of death look macabre if not maudlin the mourning portraits and quilts the postmortem daguerreotypes and the memorial jewelry now hopelessly if not morbidly distressing Yet this sentimental culture of mourning and memorializing provided opportunities to the bereaved to assert deeply held beliefs forge social connections and advocate for social and political change This culture also permeated the literature of the day especially the works of Edgar Allan Poe and Walt Whitman In *Communities of Death* Adam C Bradford explores the ways in which the ideas rituals and practices of mourning were central to the work of both authors While both Poe and Whitman were heavily influenced by the mourning culture of their time their use of it differed Poe focused on the tendency of mourners to cling to anything that could remind them of their lost loved ones Whitman focused not on the mourner but on the soul s immortality positing an inevitable reunion Yet Whitman repeatedly testified that Poe s Gothic and macabre literature played a central role in spurring him to produce the transcendent *Leaves of Grass* By unveiling a heretofore marginalized literary relationship between Poe and Whitman Bradford rewrites our understanding of these authors and suggests a more intimate relationship among sentimentalism romanticism and transcendentalism than has

previously been recognized Bradford's insights into the culture and lives of Poe and Whitman will change readers' understanding of both literary icons

The complete poetical works of Edgar Allan Poe James A. Harrison, *Poems of Sixty-five Years* William Ellery Channing, 1902. Excerpt from *Poems of Sixty Five Years*. The Spider when included by his friend Samuel Gray Ward in Channing's first series of poems varied but little from its first form though shortened slightly. When four years later Emerson's first collection of poems came out, the resemblance in form of Channing's Spider to a favorite metre of Emerson led people to say that Channing had imitated Emerson's Bumblebee though in fact his poem was written and printed before a line of Emerson's verse had attracted notice.
