records The sheer volume of the escapes and the number of successful home runs in reaching British lines are noteworthy and compare favourably with the level of escape efforts made in later wars George Washington became personally involved in the men s escape when many joined American regiments but only to use them to reach British lines Washington quickly recognised they had no love for the American cause and had great difficulty in making his officers understand what the British soldiers were up to He had to resort to threats against his officers to make them aware their regiments were being used only as a convenient means of transportation through American held territory On the British side it seems that contrary to orders Burgoyne s second in command Major General William Phillips Royal Artillery broke the conditions of his parole by conspiring to effect the escape of the men Likewise General Sir Henry Clinton commanding in New York did all he could to encourage escape and did much to support the prisoners actions In this carefully researched book Richard Sampson is fair to both sides He has concluded that the American army cannot be blamed for the conditions of incarceration under which the men were held He is critical of the Americans only when the politicians in Congress broke the treaty at the same time giving orders to their soldiers which were impossible for them to carry out and which adversely impacted both the prisoners and the surrounding American population
