English Childrens:

The Family in English Children's Literature Ann Alston,2008-06-03 From the trials of families experiencing divorce as in Anne Fine s Madame Doubtfire to the childcare problems highlighted in Jacqueline Wilson s Tracy Beaker it might seem that the traditional family and the ideals that accompany it have long vanished However in *The Family in English Children s Literature* Ann Alston argues that this is far from the case She suggests that despite the tales of family woe portrayed in children s literature the desire for the happy contented nuclear family remains inherent within the ideological subtexts of children s literature Using 1818 as a starting point Alston investigates families in children s literature at their most intimate focusing on how they share their spaces their ideals of home and even on what they eat for dinner What emerges from Alston s study are not so much the contrasts that exist between periods but rather the startling similarities of the ideology of family intrinsic to children s literature *The Family in English Children s Literature* sheds light on who maintains control who behaves and how significant children s literature is in shaping our ideas about what makes a family good

National Character in South African English Children's Literature Elwyn Jenkins,2006-11-01 This is the first full length study of South African English youth literature to cover the entire period of its publication from the late nineteenth century to the early twenty first century Jenkins book focuses on what made the subsequent literature essentially South African and what aspects of the country and its society authors concentrated on What gives this book particular strength is its coverage of literature up to the 1960s which has until now received almost no scholarly attention Not only is this earlier literature a rewarding subject for study in itself but it also throws light on subsequent literary developments Another exceptional feature is that the book follows the author s previous work in placing children s literature in the context of adult South African literature and South African cultural history e g cinema He also makes enlightening comparisons with American Canadian and Australian children s literature
