Grace Towns Hamilton and the Politics of Southern Change Lorraine Nelson Spritzer, Jean B. Bergmark, 2009-02-01 No history of the civil rights era in the South would be complete without an account of the remarkable life and career of Grace Towns Hamilton the first African American woman in the Deep South to be elected to a state legislature A national official of the Young Women s Christian Association early in her career Hamilton later headed the Atlanta Urban League where she worked within the confines of segregation to equalize African American access to education health care and voting rights In the Georgia legislature from 1965 until 1984 she exercised considerable power as a leader in the black struggle for local state and national offices promoting interracial cooperation as the key to racial justice Her probity and moderation paved the way for the election of other black women and by the end of her political career no southern legislature was without women members of her race Lorraine Nelson Spritzer and Jean B Bergmark examine two generations of African American history to give the long view of Hamilton s activism The life spans of Hamilton and her father an Atlanta University professor who was her greatest mentor encompassed the best and worst of the African American experience inevitably shaping Hamilton s outlook and achievements

Lost Revolutions Pete Daniel, 2000-11-15 This sweeping work of cultural history explores a time of startling turbulence and change in the South years that have often been dismissed as placid and dull In the wake of World War II southerners anticipated a peaceful and prosperous future but as Pete Daniel demonstrates the road into the 1950s took some unexpected turns Daniel chronicles the myriad forces that turned the world southerners had known upside down in the postwar period In chapters that explore such subjects as the civil rights movement segregation and school integration the breakdown of traditional agriculture and the ensuing rural urban migration gay and lesbian life and the emergence of rock n roll music and stock car racing as well as the triumph of working class culture he reveals that the 1950s South was a place with the potential for revolutionary change In the end however the chance for significant transformation was squandered Daniel argues One can only imagine how different southern history might have been if politicians the press the clergy and local leaders had supported democratic reforms that bestowed full citizenship on African Americans and how little would have been accomplished if a handful of blacks and whites had not taken risks to bring about the changes that did come

**Southern Black Women in the Modern Civil Rights Movement** Bruce A. Glasrud, Merline Pitre, 2013-03-28 Throughout the South black women were crucial to the Civil Rights Movement serving as grassroots and organizational leaders They protested participated sat in mobilized created energized led particular efforts and served as bridge builders to the rest of the community Ignored at the time by white politicians and the media alike with few exceptions they worked behind the scenes to effect the changes all in the movement sought Until relatively recently historians too have largely ignored their efforts Although African American women mobili

**White Flight** Kevin M. Kruse, 2013-07-11 During the civil rights era Atlanta thought of itself as The City Too Busy to Hate a rare place in the South where the races lived and thrived together Over the course of the 1960s and 1970s however so many whites fled the city for the suburbs that Atlanta earned a new nickname The City Too Busy Moving to Hate In this reappraisal of racial politics in modern America Kevin Kruse explains the causes and consequences of white flight in Atlanta and elsewhere Seeking to understand segregationists on their own terms White Flight moves past simple stereotypes to explore the meaning of white resistance In the end Kruse finds that segregationist resistance which failed to stop the civil rights movement nevertheless managed to preserve the world of segregation and even perfect it in subtler and stronger forms Challenging the conventional wisdom that white flight meant nothing more than a literal movement of whites to the suburbs this book argues that it represented a more important transformation in the political ideology of those involved In a provocative revision of postwar American history Kruse demonstrates that traditional elements of modern conservatism such as hostility to the federal government and faith in free enterprise underwent important transformations during the postwar struggle over segregation Likewise white resistance gave birth to several new conservative causes like the tax revolt tuition vouchers and privatization of public services Tracing the journey of southern conservatives from white supremacy to white suburbia Kruse locates the origins of modern American politics Some images inside the book are unavailable due to digital copyright restrictions

*Desegregating Private Higher Education in the South* Melissa Kean, 2008-10-15 After World War II elite private universities in the South faced growing calls for desegregation Though unlike their peer public institutions no federal court ordered these schools to admit black students and no troops arrived to protect access to the schools to suggest that desegregation at these universities took place voluntarily would be misleading In *Desegregating Private Higher Education in the South* Melissa Kean explores how leaders at five of the region's most prestigious private

universities Duke Emory Rice Tulane and Vanderbilt sought to strengthen their national position and reputation while simultaneously answering the increasing pressure to end segregation To join the upper echelon of U S universities these schools required increased federal and northern philanthropic funding Clearly to receive this funding schools had to eliminate segregation and so a rift appeared within the leadership of the schools University presidents generally favored making careful accommodations in their racial policies for the sake of academic improvement but universities boards of trustees the presidents main opponents served as the final decision makers on university policy Board members usually comprised of professional white male alumni reacted strongly to threats against southern white authority and resisted determinedly any outside attempts to impose desegregation The grassroots civil rights movement created a national crisis of conscience that led many individuals and institutions vital to the universities survival to insist on desegregation The schools felt enormous pressure to end discrimination as northern foundations withheld funding accrediting bodies and professional academic associations denied membership divinity students and professors chose to study and teach elsewhere and alumni withheld contributions The Brown v Board of Education decision in 1954 gave the desegregation debate a sense of urgency and also inflamed tensions which continued to mount into the early 1960s These tensions and the boards resistance to change created an atmosphere of crisis that badly eroded their cherished role as southern leaders When faced with the choice between institutional viability and segregation Kean explains they gracelessly relented refusing to the end to admit they had been pressured by outside forces Shedding new light on a rare unexamined facet of the civil rights movement

Freedom in the Family Tananarive Due,Patricia Stephens Due,2003 History happens one person at a time Patricia Stephens Due Patricia Stephens Due fought for justice during the height of the Civil Rights era surrendering her very freedom to ensure that the rights of others might someday be protected Her daughter Tananarive grew up deeply enmeshed in the values of a family committed to making right whatever they saw as wrong Together they have written a paean to the movement its struggles its nameless foot soldiers and its achievements and an incisive examination of the future of justice in this country Their mother daughter journey spanning the struggles of two generations is an unforgettable story In 1960 when she was a student at Florida A M University Patricia and her sister Priscilla were part of the movement s landmark jail in the first time during the student sit in movement when protestors served their time rather than paying a fine She and her sister and three FAMU students spent forty nine days behind bars rather than pay for the crime of sitting at a Woolworth lunch counter Thus began a lifelong commitment to human rights Patricia and her husband civil rights lawyer John Due worked tirelessly with many of the movement s greatest figures throughout the sixties to bring about change particularly in the Deep Southern state of Florida

Freedom in the Familychronicles these years with fascinating raw power Featuring interviews with civil rights leaders like Black Panther Stokely Carmichael later known as Kwame Ture and ordinary citizens whose heroism has been largely unknown this is a sweeping multivoiced account of the battle for civil rights in America It also reveals those leaders potentially controversial feelings about the current state of our nation a country where police brutality and crippling disparities for blacks and whites in health care education employment and criminal justice still exist today A mother writes so that the civil liberties she struggled for are not eroded so that others will take up the mantle and continue to fight against injustice and discrimination Her daughter as part of the integration generation writes to say thank you to show the previous generation how very much they ve done and how much better off she is for their effort despite all the work that remains Their combined message is remarkable moving and important It makes for riveting reading

**Veiled Visions** David Fort Godshalk,2005 Placing the four day riot in a broader narrative of twentieth century race relations in Atlanta in the South and in the United States the author examines the riot s origins and how memories of this cataclysmic event that resulted in at least twenty five black fatalities shaped black and white social and political life for decades Simultaneous
