

## 12th grade Grand Master Architect

*Twelfth Degree of the Ancient and Accepted  
Scottish Rite/Ninth Degree of the Capitular Lodge of Perfection/Ninth  
of the Ineffable or Sublime Degrees  
First Grade of the Fourth Class or Series The legend:*

Solomon summoned the Twelve Sublime Chosen Knights and his Ministers to present a project on both architecture and taxation, because the work was not progressing as expected ("The work had stopped upon reaching the third floor").

The origin of this legend seems to be situated in some political event or in some criticism of the ambition of the religious and the hoarding of money by the Church.

The fusion of architecture and taxation should not surprise us, because according to some authors the Temple of Jerusalem was a burden for the people, whose (high) taxes were almost entirely used to cover the expenses of the Temple.

The idea is therefore simple: to present a ruler concerned with preventing the works of religion from being built on the suffering and misery of the people. Could the historical Solomon really have been so considerate of his subjects? We don't know...

As a result of all this, Solomon realized that it was necessary to establish this degree in order to form a school of Architecture, in which the workers of the Temple would receive the proper instruction, providing them with the way to reach perfection in the Royal Art.

His goal was to prepare them to be better artists and, through Art, to rise towards the Great Architect of the Universe.

There is a double meaning here: one exoteric: that education should be accessible to all social classes and another esoteric: that human beings can elevate themselves thanks to Art, which reflects the Universe.

The origins of the degree:

... seem to date from between 1750 and 1772.

This degree begins a new class of the rite, in which perfection in Masonic mastery is pursued and one reaches an understanding of the word sublime.

It presents some analogies with the degree of Companion.

In the Adonhiramite Rite this degree is divided into three: the Little Architect, the Great Architect or Scottish Companion and the Scottish Master.

In the Mizraim Rite its symbolism is subdivided into a multitude of degrees that bear in their title the terms "Architect" or "Architecture".

It presents some remote points of contact with the Past Master of the York Rite.

*The five orders of architecture*

*Each order represents a different paradigm, a distinct archetype for construction. It is, then, a model that is then reflected in concrete construction*

Around 1940, according to Frau Abines, several Supreme Councils still conferred it by initiation. But today it is conferred almost exclusively by communication, so very interesting symbols and rituals have been lost.
