**John Mason Neale, Richard Frederick
Littledale**

Glory Be To Mars:

Glory be to Mars Thomas William Cronin, 2005 The beginning two novels in the series were about the early years of the first human settlement on Mars but you don't have to read them to enjoy this latest stand alone novel in which a new desert fox is the pivotal character in a great war on Mars In the first novel *As It Is On Mars* three courageous explorers abandoned to die on Mars in 2038 found a fantastic but illegal settlement In the second stand alone novel *Give Us This Mars* European and American rescue missions in 2048 compete to take over the fledgling settlement which turns out to have resources worth trillions of dollars The story in this third novel *Glory Be to Mars* takes place over a quarter century later in 2074 It has a whole new set of lead characters and enough of the early history of the settlement is included for new readers to join the tale effortlessly By now the illegal settlement has grown enormously and a whole new generation born on Mars has grown up thanks mainly to an amazing machine the Martians have developed unlike anything the world has ever seen Getting rid of this well defended settlement is now a serious military matter But as the story opens a United Nations coalition armada approaching Mars is intent on doing just that it is so overwhelming a military force that nobody on Earth thinks the settlement has a chance Coalition governments on Earth have terrified their citizens into believing that the Martians amazing machine is a horrible weapon of total annihilation capable of eliminating all human life on Earth The fabricated fear has had the desired effect and decent people are supportive of the obscenely expensive armada to Mars They will pay anything for an end to the dangerous illegal settlement and its abominable machine The armada is the brainchild of two cunning scheming aristocratic brothers both born leaders out for wealth power and prestige They are also out to avenge their father's disgraceful death on Mars and erase a demeaning stain of dishonor that has sullied their ancient family name One brother Harold Derk is the CEO of Condor Copper Inc the world's largest resource company bent on taking a huge copper deposit from the Martians worth over ten trillion dollars Harold paid for the warmongering political leaders who engineered the armada The other brother four star General Oliver Derk is the armada commander This rogue general has genocide in mind and has the overwhelming military resources he needs to kill off all his Martian enemies The armada's arrival triggers a great war on Mars and this is the story of those who fought in that war particularly a young man the war makes into a legend the desert fox of Mars The story opens with a small Martian work crew far from home They have just finished hiding the infamous Martian machine to keep it out of the hands of approaching coalition forces That evening the Martian work crew makes a fluke discovery Coalition forces have secretly arrived unexpectedly early obviously planning a surprise attack on the settlement The workers now have to get home at once to warn the settlement of the danger They take an impossible short cut up along the treacherous thirty mile long Hell Ridge which climbs up to a four mile high plateau they must cross to get home But then in Chapter Two disaster Not long after a deadly enemy of the coalition appears out of the southern waste at the head of a dusty column of tanks his predator drones flying overhead It is Edward Russell a young man with desert warfare in

his genes He is soon to be known as the desert fox of Mars feared and revered on two planets Two women are a major part of the story both in love with Edward and engaged in their own private war over which of them will have him A religious American President is also involved He is an enemy of the big resource companies but is boxed in by the cunning Derk brothers and left with no choice but to fight a war he has no heart for There is a sly psychotic hit man in the story too He is an essential part of General Derk s genocidal plan to kill every single Martian and his first contract will be to arrange for an American war correspondent to have an accident Americans must not know what is being done on Mars in their name These characters and many more walk the pages of this powerful fast paced tale of war malice ambition love and treachery in a story that takes the reader along on the tank columns of the desert fox to witness his daring exploits in a war that transforms the western hemisphere of Mars into a gigantic military chessboard **The London that was Rome** Michael

Harrison,2023-02-14 First published in 1971 The London that was Rome is both a detective story and a tale of buried treasure Some years ago Michael Harrison set out to discover the truth about Roman London Did it survive the Saxon onslaught in the fifth century or as many historians have claimed did it lie sacked ruined and abandoned for about a century and a half Searching for an answer Harrison forged himself a new truth detecting method of discovery but even he could not anticipate the immense success of this method With New Archaeology he has not only recovered the street plan of Roman London but also replaced the buildings temples barracks banks baths picture galleries treasuries and so on which lined those streets In many cases he has been able to name the streets and at the same time vividly describe for us the social and economic life of a London which under the Caesars ranked among the principal cities of the Empire This book is an interesting read for students of archaeology history and for general readers interested to know about London *Mr. Fox*
