Gobblers I Have Known:

Gobblers I Have Known... Tim Herald,2001-09 **Wild Turkeys I Have Known** Jim Jackson,2023-09-26 This book contains some of my unique experiences that I have encountered while turkey hunting You will be surprised at the unusual situations in which I have found myself **Shooting on Upland, Marsh, and Stream** William Bruce Leffingwell,1890

Harper's Young People ,1892 *The Wild Turkey and Its Hunting* Edward Avery McIlhenny,1914 **A Southern Sportsman** Ben McC. Moise,2014-07-28 Tales of pursuing turkeys deer ducks and partridges through the fields forests and swamps of South Carolina Henry Edwards Davis 1879 1966 began his hunting adventures as a boy riding in the saddle with his father on foxhunts and deer drives in the company of Confederate cavalry veterans Born on Hickory Grove Plantation in Williamsburg County South Carolina Davis developed his taste for the hunt at an early age In later years he became a renowned sportsman and expert on sporting firearms Published here for this first time after a four decade long hiatus his collection of southern hunting tales describes his many experiences in pursuit of turkeys deer ducks and partridges through the fields forests and swamps of South Carolina s Pee Dee region His memoir offers a lucid firsthand account of a time before paved roads and river spanning bridges had penetrated the rural stretches of Williamsburg and Florence counties when hunting was still one of a southerner s chief social activities With a sportsman s interest and a historian s curiosity Davis intersperses his hunting narratives with tales of the region s rich history from before the American Revolution to his times in the first half of the twentieth century Davis a connoisseur of fine sporting firearms also chronicles his personal experiences with a long line of rifles and shotguns beginning with his first Old Betsy a fourteen gauge cap lock muzzleloader and later with some of the finest modern American and British shotguns He describes as well a host of small bore rifles many of which he assembled himself bedding the barrels and actions in hand carved stocks Edited by retired lowcountry game warden Ben McC Mo se and featuring a foreword by outdoor writer Jim Casada Davis s memoir is a valuable account of hunting lore and historic firearms as well as a record of evolving cultural attitudes and economic conditions in post Reconstruction South Carolina and of the practices that gave rise to modern natural conservation efforts [Hunting with the Twenty-Two](#) Charles Singer Landis,2016-01-26 The perfect rifle for hunting small game and varmints in settled and semi settled agricultural and grazing districts should be quiet safe to shoot there and inexpensive and owing to the small size of the vital areas of most of such game should be superlatively accurate Its bullet should whenever possible either expand and remain in the game or destroy itself completely upon impact with earth sod stones or rock It should kill well yet not cause needless mangling or suffering The 22 caliber rifle both in the rim fire and in the flatter shooting center fire gives the least report throws the lightest and smallest projectile is among the most accurate of all calibers and is the least expensive to shoot In the 22 long rifle caliber it is also the easiest to supply with factory ammunition which can be purchased at nearly any village hardware store In center fire it is cheap to reload has very light recoil and causes but little annoyance to farmers and stock raisers In

Eastern farming or estate country the 22 caliber both rim and center fire is the quietest and yet the most effective of all our rifle calibers for either field or woods hunting of small game In short from the thoroughly practical standpoint of being usable where any sort of rifled firearm may be shot it has more advantages and fewer disadvantages than any other caliber Further the use of a 22 caliber rifle in the field or in the forests is much like the use of a 20 gauge shotgun on quail or a fine fly rod to dangle dry flies before trout or small mouth black bass It is the equipment of the man of appreciation and discernment who wishes to develop and depend upon skill rather than upon force and smashing power After all most of us go hunting for sport We wish to enjoy ourselves to the full while gunning consequently we do not wish to be stopped neither do most of us wish to annoy landowners Nevertheless we need a weapon of precision great mechanical refinement X ring accuracy and yet which is of a type which appeals to those who have substituted skill and ability in hunting and shooting for the 30 killing pattern of the 12 gauge shotgun The real story of what has been done can be done and what you can do if properly equipped and instructed and shooting a splendidly accurate properly sighted precision built 22 caliber rifle in field and forest has never been adequately told in a book exclusively devoted to hunting and shooting small game and varmints with 22 caliber rifles The author went into this as much as space permitted in 1931 in 22 Caliber Rifle Shooting but that work is now out of print the issue having become exhausted This book by text and illustration covers the subject It is in no part a work of fiction The shooting related in this book actually occurred It tells you exactly how to hunt successfully and to shoot each common variety of North American small game and varmints where to find them how to locate and hunt them and gives numerous examples of rifles and cartridges which produced unusual results For the youth or the man with his first 22 caliber rifle for the small bore target shot who has enjoyed only one half of an experience with a 22 rifle the remaining half to be found afield and for the crank rifleman reloader small bore ballistics shark and experimenter this book is a must Read this work in the spirit in which it was written that of sportsmen writing one to another of old timers in the game of field shooting giving their experiences their hunting lore their ammunition developments their misses and their long range hits This is the book for any small game and varmint hunter who has a rifle and wants to use it more successfully If you can read this work without learning anything about hunting with the small caliber rifle you certainly know game shooting with the 22 rifle May it bring you many happy days in the field
