Gnostic Papers:

The Gnostic Papers John V. Panella, 2001-06 The Bible has embedded codes that describe a paranormal world that goes beyond what most religious concepts teach Seven Mysteries explain the hidden Gnostic meanings of the Bible and secrets hidden within the words and teachings of Jesus The hidden enigmatic parallels behind Jesus parables What the Bible really says about life death resurrection and the afterlife You will never read the Bible in the same way again [Gnostic Visions](#)

Luke A. Myers, 2011-04 Gnostic texts are filled with encounters of strange other worldly beings journeys to visionary heavenly realms and encounters with the presence and spirit of the divine In Gnostic visions author and Gnostic scholar Luke A Myers presents evidence demonstrating how Gnostic visions were created and the connection these visions have to naturally occurring visionary compounds that are still in existence today The culmination of more than ten years of research Gnostic Visions advances the understanding of classical ethnobotany Gnosticism and the genesis of early Christian history In this book the author discusses the prehistoric foundations of early human religion as well as the visionary religious traditions of the classical Greeks and Egyptians Using these as a foundation the book presents new and never before seen research explaining how Gnostic visions were created and what types of compounds were used by these ancient people to create them Gnostic Visions presents evidence directly linking visionary Ayahuasca analogs with the creation of Gnostic and Hermetic visionary experiences Gnostic Visions also describes the decline of Gnosticism other visionary practices used in the Dark Ages and gives a brief tour of the visionary plants of the new world In Gnostic visions Myers tells of his personal experience with the divine and includes some of his own reflections of the importance of mankind s relationship to the natural world He communicates that altered states of consciousness have been responsible for many of the most profound mystical religious experiences in human history

Gnosticism and the History of Religions David G. Robertson, 2021-08-12 Building on critical work in biblical studies which shows how a historically bounded heretical tradition called Gnosticism was invented this work focuses on the following stage in which it was essentialised into a sui generis universal category of religion At the same time it shows how Gnosticism became a religious self identifier with a number of sizable contemporary groups identifying as Gnostics today drawing on the same discourses This book provides a history of this problematic category and its relationship with scholarly and popular discourse on religion in the twentieth century It uses a critical historical method to show how and why Gnosis Gnostic and Gnosticism were taken up by specific groups and individuals practitioners and scholars at different times It shows how ideas about Gnosticism developed in late nineteenth and twentieth century scholarship drawing from continental phenomenology Jungian psychology and post Holocaust theology to be constructed as a perennial religious current based on special knowledge of the divine in a corrupt world David G Robertson challenges how scholars interact with the category Gnosticism and contributes to our understanding of the complex relationship between primary sources academics and practitioners in category formation
