First Man Into Space:

The First Man In Space Alistair David Todd, 2017-10-25 The First Man In Space is a dramatic poem taking the symbol of the astronaut to meditate on humanity's ability to develop and control their environment right to the very limits of the skies. Written in four parts it looks at the life of the unnamed astronaut in his childhood, his training, his experience in space and finally him growing old back on Earth. Reflecting on the philosophic as well as the scientific and also on the isolation it takes to achieve such a feat, The First Man In Space takes you to outer and inner reaches of the human will and human capability to overcome.
