Information Systems and Computing Technology Lei Zhang, Yonggen Gu, 2013-08-21
Information systems are complex, including data collecting, storing, processing, and delivering. The main components of information systems are computer hardware and software, telecommunications, databases, and data warehouses, human resources, and procedures. With the development of information systems, the innovation technologies and their applications continuously appear, such as the Internet of Things (IOT), cloud computing, big data, and smart cities.

Information Systems and Computing Technology ISCT 2013 Wuxi China, 15-16 September 2013. The book reviews recent advances in information systems and computing technology.
