Future Of Identity Centennial Reflections On The Legacy Of Erik Erikson:

The Future of Identity Kenneth R. Hoover, 2004-01-01 Erik Erikson's lifetime of clinical and interdisciplinary work on human development centered on the formation and maintenance of identity among people of diverse backgrounds. In this volume, key scholars of identity from various disciplines, some who knew and worked with Erikson, discuss and assess his legacy. Truly transdisciplinary in scope, Erikson and his scholarship begs to be revisited by psychologists, sociologists, anthropologists, and students of cultural studies.

Problematizing Identity Angel M. Y. Lin, 2007-11-29 This book argues that identity as a term needs to be problematized, not taken for granted, for both the risks and the potential that the concept offers to educators for understanding issues of social inequality and how social inequality is being reproduced and for exploring possible alternative ways educators can work with identity de/formation. p

Handbook of Stressful Transitions Across the Lifespan Thomas W. Miller, 2009-11-28 This volume provides a unique and valuable contribution to our understanding of the impact of stressful life events and mass trauma on the person, the culture, and society in the course of the life span. It provides a comprehensive look at our psychological state of affairs at the beginning of the twenty-first century. There are several volumes that address some or most of these areas individually, but this volume is unique in that it has brought together theoreticians, researchers, and clinicians who address critical challenges in our lives. But we are now several months into the global financial crisis, requiring a transition not only for the western world but for the third world. How on earth do families in trauma zones, from Sri Lanka to Afghanistan, New Orleans to Gaza, cope with similar declining older relatives with added traumas and zero medical resources attempt to survive? In news reports, politicians and financiers deny the inevitable and struggle for solutions that cannot be relevant to the new reality that they have yet to discover.

Religious Identities and the Global South Felix Wilfred, 2021-01-04 This book offers a comprehensive and interdisciplinary account of religious identities in the Global South. Drawing on literature in various fields, Felix Wilfred analyzes how religious identities intersect with the processes of globalization, modernity, and postmodernity. He illustrates how the study of religion in the Global North often revolves around questions of secularism and fundamentalism, whereas a neo-Orientalist quality often attends the study of religion in the Global South. These approaches and theorizing fail to incorporate the experiences of lived religion in the South, especially in Asia. Historically, the religions in the South have played a highly significant role in resistance to the domination by the colonial forces, an important reason for the continued attachment of the peoples of the South to their religious universe. This book puts the two regions and their scholarly norms in conversation with one another, exploring the social, political, cultural, and economic implications.

Social Symptoms of Identity Needs Mark Bracher, 2018-04-17 Explains how our major social problems, including crime, violence, terrorism, war, substance abuse, and prejudice, are the result of efforts by their perpetrators to maintain a secure identity or sense of self. It locates the root causes of these social problems and counterproductive responses in certain identity-damaging social and cultural phenomena that
