**Elder Olson** Elder Olson, 1958      **Elder Olson** Thomas E. Lucas, 1972      Encyclopedia of Contemporary Literary Theory Irene Rima Makaryk, 1993-01-01 The last half of the twentieth century has seen the emergence of literary theory as a new discipline. As with any body of scholarship, various schools of thought exist and sometimes conflict within it. Irene Rima Makaryk has compiled a welcome guide to the field. Accessible and jargon-free, the Encyclopedia of Contemporary Literary Theory provides lucid, concise explanations of myriad approaches to literature that have arisen over the past forty years. Some 170 scholars from around the world have contributed their expertise to this volume. Their work is organized into three parts. In Part I, forty evaluative essays examine the historical and cultural context out of which new schools of thought and approaches to literature arose. The essays also discuss the uses and limitations of the various schools and the key issues they address. Part II focuses on individual theorists. It provides a more detailed picture of the network of scholars, not always easily pigeonholed into the categories of Part I. This second section analyses the individual achievements as well as the influence of specific scholars and places them in a larger critical context. Part III deals with the vocabulary of literary theory. It identifies significant, complex terms, places them in context, and explains their origins and use. Accessibility is a key feature of the work. By avoiding jargon, providing mini-bibliographies, and cross-referencing throughout, Makaryk has provided an indispensable tool for literary theorists and historians and for all scholars and students of contemporary criticism and culture.      **A**

**Criticism of Elder Olson's Poetic Method** Ernest Edward Force, 1976      **Elder Olson** James L. Battersby, 1983

**Literary Criticism in Theory and Practice** Ravindra Nath Shrivastava, 2004. Advanced Students of Literary Criticism Would Definitely Find This Book Stimulating as Well as Illuminating as It Presents a Penetrating Analysis of the Major Theories and Practices of All the Dominant Groups of Literacy Critics of Our Times. In the course of the critical survey of the critical principles and methods of all the major cities, the Chicago Critics attempt a critique of contemporary criticism in their monumental work, *Critics and Criticism: Essays in Method of the Chicago Critics*. Hence the focus of this book is on the pluralistic approach of these critics who were aware of the powers and limitations of all the critical methods. Each critical method, even the Aristotelian method for which they developed a bias, addresses a certain range of questions beyond which it loses its utility. No critical method, as they point out, is all-embracing. Critical system of critical philosophy: critics having exclusive commitment to a particular critical system are bound to be partial critics. So a pluralistic approach should be the ideal one. But in order to be a pluralistic critic, a student of literary criticism must be conversant with all the major critical approaches. The present book is significant in the sense that it has the capacity to train teachers and students of literature in the art of literary appreciation that enhances the enjoyment of literary works. Since every literary piece is a constructed whole, Aristotle's method provides clues to its specific constructive principle through a process of regressive reasoning: the *a posteriori* approach. The special discussion of the Chicago

Method In This Book Explains The Aristotelian Bias Of The Chicago Critics Who Were Actually Neo Aristotelians In A Limited Sense They Began Where Aristotle Left Off To Pursue Similar Lines Of Study In The Poetics Of Modern Literature As The Chicago School Of Criticism Is A Brilliant Exercise In Remedial Criticism This Book May Serve As Materia Medica Of Critical Theories And Practices For Students And Teachers Of Literary Criticism **ELDER OLSON.
