Motivating Mathematics: Engaging Teachers And Engaged Students David Graham Wells, 2015-10-15 *Motivating Mathematics* demonstrates that pupils can be motivated by being given the Big Picture, including a clearer picture of the nature of maths, and by linking topics to the sciences rather than teaching each topic in isolation. The author emphasises the many virtues of problem solving, strongly emphasised in secondary education specifications, especially the role of perception and the ability of pupils to create their own proofs and to appreciate cool ideas and arguments. David Wells draws on his extensive experience of teaching primary

and secondary pupils and his understanding not just of how students think about mathematics but of how they feel about a subject which so often seems merely a collection of facts and rules to be mastered This book will be of immediate practical use to teachers and students at all levels Anyone involved in mathematics education will benefit from reading this inspiring book whether classroom teacher trainer teacher in training or professional development or even parent The book will also be of interest to policy makers and others with an investment in the future of mathematics education MnM-Mental Mathematics-TB-04-R Wadhwa Kusum, Kusum Wadhwa has a teaching experience of 30 years and has authored a number of Maths books with various publishers She has also lent her expertise to a number of NCERT projects Anju Loomba has a teaching experience of more than 20 years in various reputed schools and is associated with many publishers as an author She has worked with NCERT on various projects MnM-Mental Mathematics-TB-01-R Wadhwa Kusum, Kusum Wadhwa has a teaching experience of 30 years and has authored a number of Maths books with various publishers She has also lent her expertise to a number of NCERT projects Anju Loomba has a teaching experience of more than 20 years in various reputed schools and is associated with many publishers as an author She has worked with NCERT on various projects
