Cultures of the Death Drive Esther Sánchez-Pardo, 2003-05-01 A study of melancholia, sexuality, and representation in literary and visual texts that can be read at the crossroads of psychoanalysis and the arts in modernism

The Fundamentals of Psychoanalytic Technique R. Horacio Etchegoyen, 2018-04-17 This book presents the theories and observations of each major contributor to the discussion of psychoanalytic technique and reveals the particular advantages and disadvantages which fall to the various theoretical positions and orientations adopted by each contributor

The Mythology Surrounding Freud and Klein Charlotte Schwartz, 2017-11-08 In *The Mythology Surrounding Freud and Klein*, Charlotte Schwartz challenges the current misperceptions and theoretical ideas surrounding Sigmund Freud and Melanie Klein through a systematic review of their respective theoretical work and clinical studies. Specifically, Schwartz argues against the current perception that Klein was the originator of object relations theory and that Freud's metapsychology was a drive-centered theory with little regard for the object and object relations. Schwartz further examines the development of drive and object relations through a review of key theorists who influenced psychoanalytic training and treatment methodology in this area, including Ferenczi, Abraham, Jones, Fairbairn, Guntrip, and Winnicott. This book is recommended for scholars of psychology and history.

Understanding Mental Objects Meir Perlow, 2003-09-02 The ways in which an individual the subject relates to and perceives other people, his or her objects, has always been a preoccupation of psychoanalysis, and in recent years a plethora of concepts has grown up in the literature. In this ground-breaking study, Meir Perlow sets out to clarify the changing meanings of the different concepts from context to context, discussing in depth the theoretical issues underlying them. The book begins with an historical survey of how mental objects have been understood in the various schools of psychoanalysis as they have developed. These include Freud and his associates, the object relations approaches of Klein, Fairbairn, and Bion, orientations derived from ego psychology such as those of Schafer and Kernberg, and the self-orientation of Winnicott and Kohut. In Part Two, the author discusses the conceptual and clinical issues involved in the major differences between the concepts. Finally, in Part Three, he delineates three basic meanings of the concepts of mental objects as they have emerged in the literature and shows how they are related to ongoing issues in contemporary psychoanalysis. This long-overdue clarification of a complex area with its wide-ranging and imaginative grasp of the different theories about objects will be an invaluable reference for all psychoanalysts and psychologists.
