Star Patterns

Findout Constellations

What:
There is a lot of stars that make up constellations. Learning to understand them can help you understand the universe better. You can find out more about them by looking at the night sky.

How:
You can find out more about the constellations by looking at the night sky. You can also use a telescope to see the stars more clearly. You can also use a star chart to help you find the stars.

Why:
The constellations are important to us because they help us understand the universe. They also help us to know where we are in the sky.

Where:
The constellations are found in the night sky. You can find them in the northern sky.
