Findout Constellations

What:
There is a lot of stars that make up constellations. Learning to find constellations is an important skill for astronomers and stargazers. It helps them to know what they are looking at in the night sky.

How:
You can use a star chart or the southern hemisphere star chart to find constellations. The sky is divided into 48 constellations. Each constellation has a different shape and size.

Why:
The stars in constellations are grouped together because they are part of the same star system. They are all part of the same star system.

Where:
The stars in constellations are found in the same part of the sky. They are all part of the same star system.
