Cases and Materials on Employment Law Samuel Estreicher, Michael C. Harper, 2008. This law school casebook is designed as a teaching vehicle for a one-semester treatment of the basic law of the employment relationship. It offers a comprehensive approach to the regulation of employment decisions, tackling the subject from both practical and theoretical perspectives. It also includes notes and questions throughout, highlighting insights from secondary literature and offering alternative analytical approaches and solutions to the principal readings. Its authors are presently engaged as reporters for the American Law Institute's Restatement of Employment Law.

Public Sector Employment Martin H. Malin, Ann C. Hodges, Joseph E. Slater, 2011. This law school casebook includes materials dealing with constitutional rights of public employees, civil service tenure, and other laws specific to public employees, as well as public employee collective bargaining statutes and significant unionization among public employees. It emphasizes how the law governing the public sector workplace differs from the private sector. The book facilitates classroom examination of different policies, issues, and concerns that arise when government is the employer. Laws from a variety of states, as well as the federal government, enable the instructor to compare different approaches to matters such as bargaining unit definitions, scope of bargaining, impasse resolution, and grievance arbitration.
