Nyanaponika (Thera),1962      *Buddhist Meditation* Sarah Shaw,2006-02-14 Meditative practice lies at the heart of the  
Buddhist tradition This introductory anthology gives a representative sample of the various kinds of meditations described in  
the earliest body of Buddhist scripture the Pali canon It provides a broad introduction to their traditional context and  
practice and supplies explanation context and doctrinal background to the subject of meditation The main themes of the book  
are the diversity and flexibility of the way that the Buddha teaches meditation from the evidence of the canon Covering  
fundamental features of Buddhist practice such as posture lay meditation and meditative technique it provides comments  
both from the principal early commentators on Buddhist practice Upatissa and Buddhaghosa and from reputable modern  
meditation teachers in a number of Theravadin traditions This is the first book on Pali Buddhism which introduces the reader  
to the wide range of the canon It demonstrates that the Buddha s meditative tradition still offers a path of practice as  
mysterious awe inspiring yet as freshly accessible as it was centuries ago and will be of interest to students and scholars of
