McChesney, 2001-08-27 Describes in detail the most recent rapid growth and cross border activities and linkages of an industry of large global media conglomerates **The Global Media: the New Missionaries of Corporate Capitalism** Edward S. Herman, Robert W. McChesney, 1997 **Democratizing Global Media** Robert A. Murphy, 2004-02-24 Global Media Studies explores the theoretical and methodological threats that are defining global media studies as a discipline Emphasizing the connection of globalisation to local culture this collection considers the diversity of modes of reception reception contexts uses of media content and the performative and creative relationships that audiences develop with and through the media Through ethnographic case studies from Brazil Denmark the UK Japan Lebanon Mexico South Africa Turkey and the United States the contributors address such questions as what links media consumption to a lived global culture what role cultural tradition plays globally in confronting transnational power how global elements of mediated messages acquire class and regional and local characteristics *Social Theory* Berch Berberoglu, 2017-01-06 Social Theory provides a sophisticated yet highly accessible introduction to classical and contemporary social theories The author s concise presentation allows students and instructors to focus on central themes The text lets theorists speak for themselves presenting key passages from each theorist s corpus bringing theory to life The approach allows instructors the opportunity to help students learn to unpack sometimes complex prose just as it offers inroads to class discussion Chapters on Addams and early feminism on Habermas and the Frankfurt School on Foucault and on globalization and social movements round out contemporary coverage The book presents and explains key theories just as it provides an introduction to central debates about them [The Making of Global Capitalism](#) Leo Panitch, Sam Gindin, 2013-10-08 The all encompassing embrace of world capitalism at the beginning of the twenty first century was generally attributed to the superiority of competitive markets Globalization had appeared to be the natural outcome of this unstoppable process But today with global markets roiling and increasingly reliant on state intervention to stay afloat it has become clear that markets and states aren t straightforwardly opposing forces In this groundbreaking work Leo Panitch and Sam Gindin demonstrate the intimate relationship between modern capitalism and the American state The Making of Global Capitalism identifies the centrality of the social conflicts that occur within states rather than between them These emerging fault lines hold out the possibility of new political movements that might transcend global markets **Globalization**
