Teaching Business Ethics for Effective Learning Ronald R. Sims, 2002-05-30
The key to teaching business ethics successfully says Sims is to start with clear goals and a sensible expectation of outcomes and with a true knowledge and appreciation of how people actually learn Seems obvious enough he says but the surprise is that so few understand this Thus the teaching of business ethics is often an unproductive frustrating exercise in futility Sims hopes to change that Proceeding with the conviction that open communications between teacher and student before during and after the teaching experience is vital Sims identifies key teaching processes gives practical advice on designing and planning the curriculum and offers guidance on how to develop a climate conducive to effective learning He highlights the importance of creating a classroom climate that encourages open dialogue good moral conversation and conversational learning And throughout he emphasizes that learning styles and experiential learning theory are cornerstones of teaching business ethics thus taking an approach unlike any in the literature An important guide for those who are new to teaching this essential subject Sims book will also be helpful for more experienced teachers who are wondering why their own methods do not always work or do not work as well as they believe they should Sims identifies important processes that must be managed if business ethics is to be taught and learned successfully processes such as creating stakeholder commitment to the goals purposes and outcomes of the teaching effort and curriculum design and planning that are attuned to individual differences in learning styles motivation and values Also included in Sims processes are the development of individual school outcomes and expectations and the assessment procedures that can measure them He discusses the importance of incorporating debriefing into an experiential learning exercise or discussion and goes on to give an in depth discussion of the pedagogical approaches that

allow teachers to teach the practical and theoretical components of the subject simultaneously Well illustrated with examples such as an interdisciplinary approach to teaching and a way to institutionalize outcomes assessment by means of total quality management Sims book returns constantly to his major theme that to teach business ethics effectively the teacher must first create a climate of trust and sharing within and between students and between students and teacher and that the teacher must have a concrete way to measure the impact of the teaching effort s results Handbook of Research on Teaching Ethics in Business and Management Education Wankel, Charles, Stachowicz-Stanusch, Agata, 2011-12-31 This book is an examination of the inattention of business schools to moral education addressing lessons learned from the most recent business corruption scandals and financial crises and also questioning what we re teaching now and what should be considering in educating future business leaders to cope with the challenges of leading with integrity in the global environment Provided by publisher **Effective Teaching Strategies in Business Education** Vicente Salvador Montaño, Lily Mae De Chavez, 2016-08-23 Research Paper from the year 2015 in the subject Pedagogy Higher Education grade 97 00 University of Mindanao University of Mindanao language English abstract Numerous studies dwell on investigating the best teaching strategies for students to learn Few studies try to investigate teaching strategies that are effective in business education However fewer studies examine the preferred teaching strategy of business students This study explores the preferred teaching strategy of business students by using the conjoint analysis The regression model suggested that a significant proportion of the total variation in the student s ranking was predicted by quizzes 1 47E 15 group work 1 0 project 1 3 recitation 6 52E 16 lecture 1 0 and time management 0 33 F 6 20 11 67 p 0 008 The result implied that business students preferred the scaffold learning in a student centered class A blended learning must be used when teachers engaged students in lectures and reporting In addition a teacher s poor time management of class affects learning **Learning and Teaching for Business** David Hawkridge, 2003-12-16 This collection of best practice examples of business teaching should inspire and inform those involved in the improvement of teaching in higher education Assembled by the Learning and Teaching Support Network the examples are drawn from institutions throughout the UK including The Open University Sheffield Hallam City University St Andrews Brighton De Montfort Liverpool John Moores Glasgow Leeds Met and Plymouth Individual case studies focus on everything from the use of action learning resource based learning using technology and peer assessment to the development of a knowledge management system Developing Effective Managers Reginald W. Revans, 1971 Monograph on an experimental management development programme lasting from march 1968 to july 1969 involving close cooperation between universities and 21 large private enterprises in Belgium whereby selected managers worked fulltime in enterprises other than their own while receiving advice from university management teaching staff outlines theoretical guidelines and covers communication managerial decision making and business organizational change adaptation and the learning process etc **Handbook of Teaching with Technology in Management,**
