---

**Cybersecurity is serious business; an ever-present threat that executives are right to worry about.**

However, understanding cybersecurity — and the steps your business should take to be more secure — is complex and technical (and let's be honest, not very interesting for most people).

Unfortunately, many of the resources out there that deal with cybersecurity do so from a specialist's point of view. They're packed full of jargon and insider lingo that just doesn't work for executives who aren't tech specialists.

We want to fix that, so we've assembled this Executive's Guide to Cybersecurity.
