## **Front To Back A Design Agenda For Urban Housing:**

**Front to Back** Sally Lewis,2012-05-16 FRONT TO BACK sees urban housing as places to live rather than individual buildings Using a unique design agenda it provides a step by step approach to achieving quality urban living **Front to Back** Sally Lewis,2009 Annotation Shows how the principles of design can be developed to make housing contribute positively to quality urban environments Front to Back Sally Lewis,2012-05-16 FRONT TO BACK sees urban housing as places to live rather than individual buildings Using a unique design agenda it provides a step by step approach to achieving quality urban living Socially Restorative Urbanism Kevin Thwaites,Alice Mathers,Ian Simkins,2013-08-22 The need for a human orientated approach to urbanism is well understood and yet all too often this dimension remains lacking in urban design In this book the authors argue for and develop socially restorative urbanism a new conceptual framework laying the foundations for innovative ways of thinking about the relationship between the urban spatial structure and social processes to re introduce a more explicit people centred element into urban place making and its adaptation Focusing on this interplay between humans and the built environment two new concepts are developed the transitional edge a socio spatial concept of the urban realm and Experiemics a participative process that acts to redress imbalances in territorial relationships defined in terms of the awareness of mine theirs ours and yours MTOY In this way Socially Restorative Urbanism shows how professional practice and community understanding can be brought together in a mutually interdependent and practical way Its theoretical and practical principles are applicable across a wide range of contexts concerning human benefit through urban environmental change and experience and it will be of interest to readers in the social sciences and environmental psychology as well as the spatial planning and design disciplines *Constructing Professional Discourse* Concepción Orna-Montesinos,2012 This book explores the fascinating role that language plays in the construction of non verbal objects by mapping out the ontological meaning of the specialised concepts and the domain specific knowledge embedded in them In doing so it provides a comprehensive linguistic insight into the discourse of professional domain specific communities and hence into the communication practices and procedures of those communities In this respect the book offers a response to the claims made by many of the most influential applied linguists today such as Vijay Bhatia 1993 2004 John Swales 1990 2004 or Ken Hyland 2002 among others who have consistently defended the need for applied linguistic research into the textual generic and social perspectives on the under researched interrelatedness of the discursual and professional practices of a discipline Specifically this book provides readers with an integrative multi perspective approach to the study of professional domain specific discourses While it mainly draws on the tenets of genre theory and discourse semantics it also nurtures from the theoretical and empirical foundations of applied linguistics cognitive linguistics corpus linguistics and ontological engineering The book starts from the analysis of domain specific texts as final written products with specific lexico grammatical semantic and rhetorical features to later enquire into the written products as textual artefacts closely

linked to the social context of production and interpretation of the text This integrative approach provides fresh new insights into the way the processes of writing are affected by the community specific institutional and socio historical circumstances in which domain specific texts are produced *Choice*, 2005 **Book Review Index**, 2006 Every 3rd issue is a quarterly cumulation Localising Agenda 21 L.
