Frida Kahlo Die Gemalde:

Frida Kahlo: The Paintings Hayden Herrera, 1993-09-03 In small stunningly rendered self portraits Mexican artist Frida Kahlo painted herself cracked open hemorrhaging during a miscarriage anesthetized on a hospital gurney and weeping beside her own extracted heart Her works are so incendiary in emotion and subject matter that one art critic suggested the walls of an exhibition be covered with asbestos In this beautiful book art historian Hayden Herrera brings together numerous paintings and sketches by the amazing Mexican artist documenting each with explanatory text that probes the influences in Kahlo s life and their meaning for her work Included among the illustrations are more than eighty full color paintings as well as dozens of black and white pictures and line illustrations Among the famous and little known works included in *Frida Kahlo The Paintings* are *The Two Fridas* *Self Portrait as a Tehuana* *Without Hope* *The Dream* *The Little Deer* *Diego and I* *Henry Ford Hospital* *My Birth and My Nurse* and *I Here too* are documentary photographs of Frida Kahlo and her world that help to illuminate the various stages of her life

Frida Kahlo Hayden Herrera, 1991 Complete with an authoritative critical text this collection of two hundred reproductions of artworks by radical Mexican artist Frida Kahlo reveals the strange and unforgettable quality of her unique vision

Humanity in God's Image Claudia Welz, 2016-08-18 How can we in our times understand the biblical concept that human beings have been created in the image of an invisible God This is a perennial but increasingly pressing question that lies at the heart of theological anthropology *Humanity in God s Image An Interdisciplinary Exploration* clarifies the meaning of this concept traces different Jewish and Christian interpretations of being created in God s image and reconsiders the significance of the imago Dei in a post Holocaust context As normative counterfactual notions human dignity and the imago Dei challenge us to see more Claudia Welz offers an interdisciplinary exploration of theological and ethical visions of the invisible By analysing poetry and art Welz exemplifies human self understanding in the interface between the visual and the linguistic The content of the imago Dei cannot be defined apart from the image carrier an embodied creature Compared to verbal visual and mental images how does this creature as a living image refer to God like a metaphor a mimetic mirror or an elusive trace Combining hermeneutical and phenomenological perspectives with philosophy of religion and philosophy of language semiotics art history and literary studies Welz regards the imago Dei as a complex sign that is at once iconic indexical and symbolical pointing beyond itself

In-visibility Anna Vind, Iben Damgaard, Kirsten Busch Nielsen, Sven Rune Havsteen, Christopher B. Brown, Günter Frank, Bruce Gordon, Barbara Mahlmann-Bauer, Tarald Rasmussen, Violet Soen, Zsombor Tóth, Günther Wassilowsky, Siegrid Westphal, 2020-10-05 The content of the book reconsiders the relation between visibility and transcendence The focus is especially on the contribution to this issue from the theological tradition in protestant Europe between the 16th and the 21st Centuries In the book a thematically broad field is covered embracing more than five centuries and a plurality of methods drawn from theology philosophy and the history and theory of art The book is divided into five sub themes In the first and more fundamental part

The phenomenology of invisibility questions underlying the other four themes are sought defined or narrowed down Here the modes of appearing revealing or hiding of phenomena are reflected In the second section of the book dealing with Language as a mode of revealing and hiding the specific role of verbal expressions understood in a very broad sense is at the core What is the fundamental understanding and use of language when speaking of the ineffable The third section about Human existence between visibility and invisibility focuses on theological anthropology its features and norms The ambiguity of anthropological categories such as faith rationality imagination memory and emotion play a prominent role in this context The fourth section concerning The manifestation of a beyond in the arts investigates transcendence in the arts What are the theological discourses behind the religious uses of the different artistic media i e images music liturgical inventory architecture Finally in the fifth section concerning Visible community and invisible transcendence one finds contributions working with the idea of vicarious representation

Projected Art History Doris Berger, 2014-05-15 Biopics on artists influence the popular perception of artists lives and work *Projected Art History* highlights the narrative structure and images created in the film genre of biopics in which an artist s life is being dramatized and embodied by an actor Concentrating on the two case studies Basquiat 1996 and Pollock 2000 the book also discusses larger issues at play such as how postwar American art history is being mediated for mass consumption This book bridges a gap between art history film studies and popular culture by investigating how the film genre of biopics adapts written biographies It identifies the functionality of the biopic genre and explores its implication for a popular art history that is projected on the big screen for a mass audience
